

# Seminar on Achieving the SDGs: Embed Sustainability into Corporate Strategy

The [United Nations Sustainable Development Goals \(SDGs\)](#) has provided a framework and blueprint for the globe to take actions by 2030 on our most pressing issues confronting us in the pursuit of a more prosperous, inclusive and peaceful world for future generations. Green Council encourage organisations to embed SDGs as framework in their corporate strategies and initiate sustainability projects to benefit the community. This seminar will invite the outstanding organisations who have successfully embedded sustainability in achieving the SDGs.

# Seminar on Achieving the SDGs: Embed Sustainability into Corporate Strategy

## Speaker Biography

### ***Mr. Antony WAN, Senior Engineer, Drainage Projects Division, Drainage Services Department***

Mr WAN is the senior engineer responsible for the project "Revitalization of Tsui Ping River", which received the awards in "Stakeholder Engagement" and "Individual SDG Award - Goal 11: Sustainable Cities and Communities" in the UNSDG Achievement Awards Hong Kong 2023. The project involves multi-discipline of professions including civil engineering, architectural, landscape architecture, E&M etc. Stakeholder engagement also plays an indispensable role in this river revitalization project in urban context.

### ***Mr. CHEUNG Fei Kit, Senior Engineer/North, Drainage Services Department***

Mr CHEUNG is a civil engineer by profession with over 15 years of working experience. He has been involved in planning, design, operation and maintenance of drainage and sewage infrastructures. Mr CHEUNG is currently a senior engineer in the Operations and Maintenance Branch of Drainage Services Department, responsible for overseeing district matters and managing operation and maintenance works related to the drainage and sewerage systems in the North district.

### ***Mr. Hugh CHOW, Acting Executive Director - Innovation & New Ventures (Special Advisor to CEO), Kum Shing Group***

Hugh has accumulated over 25 years of experience in the innovation, technology, and executive management sectors. He started his professional career in Canada, where he gained valuable international exposure in the fields of innovation and technology. From 2018 to 2021, Hugh served as the Chief Executive Officer at the Hong Kong Applied Science and Technology Research Institute (ASTRI), the largest government-funded research and development centre in Hong Kong for applied science and technology. He is currently serving as the Special Advisor at Kum Shing Group, a local corporation that has played a vital role in the development, operation, and maintenance of Hong Kong's energy infrastructure for decades.

Hugh holds a Bachelor of Science degree in Electrical Engineering from the University of Hong Kong, and a Master of Science degree in Electrical Engineering from the University of Colorado in the United States.

## Seminar on Achieving the SDGs: Embed Sustainability into Corporate Strategy

### ***Ms Melanie KWOK, Assistant General Manager (Sustainability), Sino Group***

Melanie is the Assistant General Manager (Sustainability) and the Head of Sustainability of Sino Group. She oversees a range of sustainability projects related to ESG. Being a specialist in the realm of Sustainable Development for nearly 20 years, Melanie has also gained extensive experiences in Sustainable Tourism and Stakeholder Engagement.

Melanie is serving various public duties, including the Vice Chairmen of the Hong Kong General Chamber of Commerce (HKGCC)'s Environment & Sustainability Committee, a member of the Publicity Working Group of Environmental Campaign Committee (ECC) and the Sub-committee on Youth and Capacity Building of the HKSAR Environment and Ecology Bureau.

### ***Mr. Billy YEUNG, Senior Director, Supply Chain Management, DKSH Hong Kong Limited***

Mr. Billy Yeung is a member of the DKSH Hong Kong Management Team, responsible for overseeing Supply Chain Operations in Hong Kong, Macau, and South China.

Since 2010, Billy has progressed from a Management Trainee to Senior Director at DKSH Hong Kong. He expertly manages 8 distribution centers across the Greater Bay Area, overseeing a complex supply chain that encompasses over 100,000 pallet spaces. His exceptional leadership skills enable him to effectively navigate and optimize operations within this intricate supply chain.

His dedication to sustainability aligns seamlessly with DKSH's core values. As a visionary leader, he actively implements sustainable practices, driving environmentally-conscious operations.

### ***Ms Judy HO, Sustainability Manager, Swire Coca-Cola HK Limited***

Judy is the Sustainability Manager at Swire Coca-Cola HK, where she drives sustainability programs and decarbonization actions in the Hong Kong market as outlined in the Swire Coca-Cola 2030 Sustainable Development Strategy across People, Planet and Product. Judy is also an appointed member of the Environment and Conservation Fund Committee by the Chief Executive of HKSAR, where she advises the trustee on the appropriate manner and extent of use of the Fund.

Prior to joining Swire, Judy was the Senior Technical Climate Action Advisor at World Vision International, providing technical assistance in strategy and program design for financing solutions in environmental, climate change, resilience, livelihoods, and economic development.
